CaRCC Systems Facing track

Interested in learning more about the state of the practice in HPC system administration? Think about joining the CaRCC Systems Facing track email list, and join the slack community.

Calls are held most months on the 3rd Thursday of the month. Calls are recorded and also available on youtube via the CaRCC channel.

Please sign up and consider attending these great talks.

https://carcc.org/people-network/systems-facing-track/

Thanks to the organizing committee

David Clifton - ANSYS

Jenett Tillotson - NCAR

John Legato -National Heart Blood and Lung Institute

Chris Phillips - Purdue University

Interested in learning more about assisting in the planning of our workshops next year? Feel free to come ask us questions that you may have about helping out the with SIGHPC SYSPROS community.

System administration for regulated research data and workflows

●●●

Erik Deumens

University of Florida

Data Center Design - From SP to DLC

●●●

Patrick Finnegan

Purdue University

Morning Break

- We will resume at 10:30am

Open Discussion

- Step up with:
  - Questions and Answers
  - Brief rants
  - Nifty ideas
  - Suggestions for the next Workshop

- Remote / Hybrid / In person working?

- Hardware acquisitions and supply chain woes

- Shrinking vendor pool

Interested in continuing the conversation?

CaRCC Systems Facing track and ACM SIGHPC SYSPROS will be holding a social event this evening!

7pm-9pm @ Rock Bottom Brewery 115 Stuart St Boston, MA 95008

Come hangout with us and meet, reconnect or just say hello in person with many of the names and faces from the various online community meetings and slack conversations.

Thank You For Coming!

Please attend the next workshop at SC and consider submitting a paper, lightning talk, or artifact!

Stay in touch with your HPC Syspros colleagues
